

AUSTRALIAN OAK

ASH

**Trends change,
quality doesn't.**

Australian Oak is your answer to a fully
customisable engineered floor.

5 STEPS TO ORDER

Step 1: Choose your size

Step 2: Choose your grade

Step 3: Choose your texture

Step 4: Choose your colour

Step 5: Choose your lustre

Visit website for details

Fully customisable engineered flooring

We've combined beautiful, sustainably-managed Victorian Ash with an innovative LED coating and a super stable substrate, manufactured to the quality you'd expect from Australia's leading hardwood manufacturer. The result is a floor of stunning architectural appearance that increases stability and speeds up installation, offering a financial saving in both time and materials. The customisation of the floor is done in a logical five-step process starting with the size of board, appearance grade, surface texture, colour and gloss level. You'll love the look, and the story.

	Select Grade	Feature Grade
